FASCISTI REGIME One Known TO IMPEDE "RED" FACTION IN ITALY

(BY CABLE AND ASSOCIATED PRESS.)

ROME, Oct. 31.-Whatever the outcome may be when the new Mussolini Cabinet goes before the Chamber of Deputies, there is general agreement that the new Prmier has gathered about him a Cabinet exceptionally strong from the Nationalist standpoint, comprising a body of men who were leaders of Italy during the great war and the outstanding protagonists for Italy's territorial claims in peace.

pensions ministry, however, is sathering force.

Winston Churchill sent a letter to his constituents today strongly opposing abolition of the ministry and expressing the hope that Mr. Law will, on further consideration, withdraw from a position hastily taken; otherwise, Churchill declares, he will resist this decision in Parliament. In the same letter, Churchill recounts a number of large economies which the late government was contemplating, largely on his recommendations, amounting to nearly 50,000,000 pounds sterling annually, which were prevented by the overthrow of the government.

Incidentally, Churchill mentions that the economies included 15,000,000 pounds sterling on naval estimates, but he regretted to say that these economies were obstinately opposed by Lieut-Col, L. C. M. S. Amery, First Lord of the Admiralty in the new Cabinet, who was financial secretary to the Admiralty. He adds that Col, Amery took a leading part in the revolt of the undersecretaries which led to the overthrow of the government, and declares:

from Carthage that a high was raging there and reports farther east from Sarcoxie said that a wind of almost tornade proportions was blowing at that point.

The examination was made at the request of Mrs. Carleton's mother, Mrs. Joseph Pyle of Butte. Mont.

TAKE BODY HOME

Mr. and Mrs. Pyle will leave early tomorrow for Helena with Mrs. Carleton's body and a second strain science carries with the apotheosis of Italy's bloodless revolution. Old Romans who witnessed the entry of the King of Italy into the capital of his newly welded kingdom on Sept. 20, 1870, wept with joy and yowed that Oct. 31, 1922, will forever mark a great epoch in the capital of the capital

Faber sees fit to give expression to such statement as is referred to above, and when the means of ascertaining the fallacy of such a belief are readily accessible, I find it powerless to restrain myself from expression. I, too, have known of Margaret's love for this man for several years, and it is fair to her to say that she confessed it to me. I will not further violate her confidence but I do want to state unqualifiedly and unreservedly, that it is a fact that this lordly preacher had led her to believe that he returned that love.

Sydenham was told at the District Attorney's office there was not a unificient ground to bring a felony complaint and he was referred to the City Prosecutor.

Fuller, in a signed statement, announced he had, with the authority invested in him as Kleagle, dissolved the Sacramento realm of the Ku Klux Klan, and that it no longer existed as a part of the national organization.

J. P. Simpson, who said he was special representative of Imperial Wizard Simmons, and who was with Fuller today, said the national headquarters of the Klan was backing Fuller in his action in dissolving the Klan here.

KEEP LOOKING YOUNG

It's Easy-If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. FOR PASTIMES If you want to be rid of corns and callouses, simply paint them with the preparation known as Cactus Corn Compound. This "paint," the discovery of a chemist, ends the pain almost immediately and in a short time the corn or callous dries up and fails off. A small bottle of Cactus Corn Compound ends dozens of corns. It can be used in the privacy of the home and is absolutely safe, whereas cutting is dangerous and makes corns grow faster. Don't suffer from corns. If your druggist has no Cactus Corn Compound, send his name and 35c to the Cactus Remedy Co., Kansas City, Mo. for a bottle prepaid to you.—[Advertisement.

A coffee manufacturer who takes pride in turning out a perfect article is in a way unfortunate, inasmuch as he has no control over the final step in manufacture, the making of the coffee in the home. The very finest coffee, unless it is made correctly, will not produce a beverage that is worthy of the effort put forth by the manu facturer, and the money expended by the purchaser. It is, however, a matter of great satisfaction to a manufacturer priding himself on the quality of his product, that the public is today becoming aware of this fact and is devoting more care to coffee making.

It has been definitely determined that the best way to prepare coffee is by the French Drip Method. This is where boiling water is poured over the coffee and drips into another receptacle. All restaurant urns are made on this principle. Agood French Drip Pot can usually be obtained in any store carrying kitchen utensils, but if your dealer cannot supply one, we will arrange to fill your order.

Although this is the best way, very good coffee can be prepared by the following method, using a heaping tablespoon of coffee to each cup of Into an ordinary coffee

pot or sauce pan, meas ure the desired amount of ground coffee and add water; bring to a boil, take from the fire. It is most important to do this, for continued boil ing causes the flavor or aroma to escape and leaves a drink that is bitter and unsatisfactory. A dash of cold water added at the time the water is removed from the fire will help to set tle the grounds.

Our New Machine, Is Here

Remington No.12

Some of the 14 Noise-Eliminating Features of New No. 12 Remington

A new cushioned cylinder which gives clean cut originals and carbons—and is Quiet.

A new type of bail which prevents any air chamber between paper and cylinder and takes another "click" out of typewriting.

A new method of eliminating noise from the escapement. The escapement dog strikes against a spring instead of solid metal. The result is Quiet.

A new cable anvil, made of finest piano wire, spiraled in two directions. In reality it is a shock absorber for the type mechanism—and it is Quiet.

The body of the machine is enclosed in sound proof plates—Quiet.

Even the slight noise caused by the type falling back in the basket has been reduced.

Eight other sound-reducing features complete this great Remington contribution to quiet and every advantage which quiet confers on a business office.

The Quiet Typewriter

The New Model 12 Remington is the herald of a new era in typewriting.

It is quiet in operation. And it has been made so without the slightest impairment of the speed, ease of operation and dependability which are essential in a first-class writing machine.

This problem of achieving relative silence, combined with the full measure of Remington efficiency, was not solved in a day. The New Model 12 is the product of years of continuous laboratory work by Remington Engineers—the most skilled and experienced in the typewriter world. As a physician listens with his stethoscope, so these engineers listened to every "click," every "hum," every sound produced in the act of typing and experimented with every possible means for transforming noise into silence.

The result is a crowning triumph in typewriter construction; a machine which retains every basic Remington feature, every quality for which the Remington is famous, every distinctive Remington improvement, including the famous selfstarter and the equally celebrated "natural touch," and in addition no less than

14 noise-eliminating features

The sum of these improvements is a degree of silence that enables the busy business man to think and work without distraction, even though the machine is also working at his elbow.

The price of this new Model 12 Remington, with "A" carriage is \$110—just \$7.50 more than the Standard machine—a \$7.50 premium for quiet.

Under conditions where quiet is not essential, we continue to recommend our Standard Correspondence Machine—the Improved Self-Starting Remington—the typewriter that is making "natural touch" famous, the machine that has made automatic indenting an accomplished fact.

Please call and see and listen to the new Remington No. 12 or phone us for a demonstration.

A good typewriter deserves a good ribbon. Paragon ribbons—made by us

TO INVESTIGATE **OIL COMPLAINTS**

Beach Cities Are Protesting Surf Contamination

Buteau of Mines Expert Ordered Here

Will Gather Facts on Coast, Recommend Remedy

WASHINGTON. Oct. 31.—Fedaril representatives will be sent
immediately to Los Angeles and
other Pacific Coast cities to make
a full investigation of the oil contamination which complaints from
the Goost assert are ruining the
bathing beaches and destroying or
impairing the great fishing industry of the entire Southwest.

The Bureau of Mines today detailed an expert to proceed to the
Const. and gather the facts and
make recommendations to end the
rouble. This action was precipitated by a complaint from
the Chamber of Commerce of Venice.

Immediate action was urged by
Senated Shortridge, who received
similar protests from other ports
and: beaches in California.

In the instructions to the Bureau of Mines representative he
was urged to complete the examination in and around Los Angeles first of all and then check up
other ports as to the prevalence of
oil in the harbors and at the
beaches.

Most of the trouble is due to
the dumping of residue from the
oil fuel tanks of steamers when
in port or approaching the various
harbors.

Last year Congress authorized
the Executive Department to make
an inquiry as to the cause and

NEW YORK STOCK EXCHANGE

(BY A. P. NIGHT WIRE)

NEW YORK, Oct. 31. - Stock prices moved in a conflicting man-ner in today's market, reflecting

prices moved in a conflicting manner in today's market, reflecting the play of opposing speculative forces, but short interests finally obtained the upper hand and again succeeded in forcing a shading of quoted values. Losses of 1 to 2 points were quite common.

Opening prices showed better tone, and indicated a relaxation of professional pressure, but the fallure of the directors of the Studebaker Motor Company to declare another extra dividend on the common stock provided an excuse for another bear attack. This was aided by a heavy liquidation in domestic oil shares, apparently the closing out of weakened speculative accounts. Studebaker registered a net loss of 4½ points on the day. While the quarterly report of the United States Steel Corporation was disappointing to many traders who expected that the dividend on the common would be earned, the showing, in view of the fact that it covered the worst period of the coal and rail strikes, was construed as an indication that the steel industry was on the mend. The balance of \$11,315,098 applicable to dividends showed that the corporation earned all of the \$6,304,919 necessary for the preferred, and all but \$1,333,602 of the \$6,353,781 needed for the common. United States Steel common

all but \$1,333,602 of the \$6,553,784 needed for the common.

United States Steel common closed at 104%, a net gain of %. after having touched 106% during the day. Other steel shares were inclined to weakness, Lackawanna dropping 2 points; Bethlehem B 1%, Midvale % and Republic %. Crucible was unchanged and "Gulf States was fractionally quiet."

public 1/4. Crucible was unchanged and "Gulf States was fractionally quiet.

Domestic oils weakened in response to a sharp break in Pacific Oil, which registered a net decline of 3½ points. Losses of 1 to nearly 3 points were sustained by Associated, Cosden and Tidewater oils, Phillips Petroleum and Producers and Refiners. Foreign oils also were heavy, Standard Oil of New Jersey failing back 3½ points, General Asphalt common and preferred 1½ and 5 points respectively, and Mexican Petroleum 1 point.

Equipment slipped back in the face of further announcements of huge orders, Baldwin dropping 2½ points, American Locomotive 1½ and American Car 1½. Changes in rail shares were mixed, a drop of 4 points in Delaware and Hudson and a loss of 1½ in Northern Pacific being the two outgranding features in that group.

May Department Stores was the individual feature, being pushed up for a net gain of 8½ points on rumors of a stock dividend at the next meeting. Some of the Industrial weak spots were Adams Express, American Steel Foundries preferred, American Sumatra Tobacco, Aflas Powder, Pressed Steel Car preferred, Reminigton Typewriter, United Retail Stores and Woolworth, all down 2½ to 3½ points.

Total sales were 1,082,000 shares

Woolworth, all down 2½ to 2½ points.

Total sales were 1,089,000 shares Call money opened at 5 per cent and then advanced to 5½, holding at that figure until the close, Stiffening of the rate was due to the withdrawal from local banks of \$13,000,000 in government funds, and the calling of loans. 6% Serial Bonds

Non-callable prior to maturity stion \$1000

Interest payable semi-annually, March 1 and September 1, at the Seaboard National Bank, New York City, N. Y.

The income derived from these bonds is entirely exempt from all Federal Income Taxes. Ownership certificates are not required when interest coupons are collected.

> Average Market value, per acre.
>
> Bonded debt, per acre.
>
> Maximum annual principal and interest charge, per acre.

SECURITY

The security for these bonds consists of a tax lien ranking ahead of first mortgages on 15,411 acres of land suitable for a wide range of staple products, such as vegetables of all kinds, melons, citrus fruits, cotton and corn. The grapefruit grown here is famous for its flavor and quality.

The bonds herein described represent the bonded debt of a Municipal District at the rate of \$24.33 per acre, incurred to purchase an existing agricultural water system for 15,411 acres of land having an assessed valuation of \$145.83 per acre, and a conservatively estimated average market value of \$325 per acre.

The exceptional fertility of the soil in this district, an abundant water supply, preximity to markets, a continuous growing season, and the early market crops which the land produces result in crop returns which, for variety, reliability, size and average value, are probably unexcelled anywhere in the United States.

An advalorem tax has been levied on all property in the district, to pay the interest on and principal of these bonds as they mature. The maximum annual tax payment per acre is \$2.21. The validity of the organization of the District, of the bond issue and of the tax levy, has been established by the District Court of Cameron County. Texas.

The Texas laws authorizing the issuance of these bonds have been carefully drawn, and contain many of the best features of the California Irrigation and Reciamation Acts, as well as additional strong safeguards.

LOS ANGELES EXCHANGE

Sudden weakening in the market
for Southern California Edison
common was the chief development of interest on the Los an
geles Stock Erchange yesterday.

Edison common opened at 161, the
level which it has been maintaining for some time, but a strong influx of selling orders broke the
strength in the market, causing a
loss of 1% points at the closing
price of 1064. Candelarie Sliver
registered a 4-cent decline, closing
at 32, which was the outstanding
feature of the mining list. The oils
were quiet.

Telluride mining finished the day
at 36% cents, an advance of 1½
cents over the previous closs. Virginia Louise, closing at 9½ cents,
was up ¼ cents, finishing at 22,
Oatman United sold at 16%.

General Festroleum was off ¼
with the closing bid quotations at
114%. Globe Petroleum gained 1
cent in a firm market occasioned
by rumors of increased production.
Union Oil Associates was unthanged at 183.

Goodyear Tire and Rubber preferred was traded in around 74,

Doble Steam Motors Corporation

AM offering you today an opportunity to invest in the stock of the Doble Steam Motors Corporation at a price of \$12.50 per share.

Looking backward into the history of the motor car industry of America, and looking forward into the future of the Doble Steam Motors Corporation, with its car of amazing simplicity and performance, I claim emphatically that this opportunity is the outstanding investment of years.

That is a big claim, and unless you can find the facts to support it I do not want you to accept it.

I want you to consider that such men as the Dodge Brothers, Hup, Olds, John M. Willys and Henry Ford made their millions in well-managed motor car companies.

And yet I say to you today that the Doble Steam Motors Corporation, with its able management, ranks with the biggest and the best for possibilities of profit.

DOBLE STEAM CAR

This car is so amazing in its simplicity and performance that every man should instantly understand why the stock of this Corporation is the outstanding investment of years.

Think of the huge profit possibilities in manufacturing and selling a car that attracted 11,000 orders in 90 days, when it was originally offered to the public five years ago.

Think of the Doble Steam Car with its element of tremendous profits. Simplicity in construction makes this possible. In the Doble Motor there are only 36 moving parts.

A Doble Steam Car of the same wheel base and power is able to out-perform and out-demonstrate any motor car of corresponding power and class. Yet, the fact of vital importance is that it can be manufactured at a cost that is materially LESS.

A superior product—a huge demand for cars—a small manufacturing cost—is the combination that makes the stock of the Doble Steam Motors Corporation, at \$12.50 per share, the outstanding investment of

When the Red Turns Black!

On the top of our valuable lease at Santa Fe Springs will stand our big red derrick.

When that good old black ofl in the sands below comes in with a roar and a rush that red derrick is going to turn black with the liquid gold that will cover her.

Every indication that science knows every sign known to practical oil drillers tells us that the ofl is down there just waiting for the tap of our drill to release the dollars and bring the happy grins to the faces of those who shared our belief.

It's a sure-fire location in one of the surest-fire oil districts in the world.

The men back of this company are putting their own hard-earned dollars into it. They are willing to back their judgment to the limit.

These men are not the usual type of professional promoters, who give nothing in the way of oil except oily words.

They are honest, upstanding, well-known business men of Los Angeles, who are known as square shooters through and through.

They will be glad to give you full particulars of this valuable lease they hold in a rich oil producing section just across from the big Hamilton gusher that came in a short time ago and a near neighbor of the new giant gusher of the Petroleum

Here's Your White Star Operating Policy!

Remember that DRILLING policy of "speed with safety"? Following that, we gave you interest-holders the fastest well ever put down from grass-roots to production at Santa Fe Springs.

NOW—the same kind of OPERATING policy-PRODUCTION with safety.

We could "cock her back" and let her flow unchecked and have a 2000 or a 2500 or possibly even a 3000-barrel gusher—and in a few days have the same kind of grief as a good share of "producers" have encount-

Instead, we beaned your well down immediately to 800 barrels. After 15 days of steady, constant flow, we've let her step up to 1100. Later, we'll let her increase still more—and you bet your whole bank-roll that your White Star Well No. 1 will flow steadily month in and month out.

A well flowing a thousand barrels EVERY day is a GOLD MINE. It is worth a dozen of the kind that spout one day and must be cleaned out or deepened the next. You White Star owners have one of the BIGGEST and STEADIEST gushers in all Santa Fe. Springs—and the proof of this statement will lie in the size of the dividend check you will receive in November.

Incidentally, your well is making oil with only 2-10ths of one per cent sand and sediment—and the refinery makes no deduction whatever for that percentage, but pays for CLEAN OIL, of 31.5 gravity.

We have no more interests in this well for sale—if you can buy them elsewhere, you will secure a REAL investment, paying a very high monthly dividend.

Present Pourparlers in Berlin Promise to be Most Significant Since World War

IRY CARLE AND ASSOCIATED PRESS.) BERLIN, Och 31.—An exchange of courtesies between Chancelle Wirth and the members of the reparations commission and a subsequent informal visit by the commissioners to the Ministry of Finance today officially inaugurated what promises to be the most significant series of pourpariers in the whole range of reparations discussions.

SEND NOTE

Neither of today's occurrences afforded indication as to what line of action the Entente investigators are likely to follow. The meeting with Minister of Finance Hermes and several secretaries of state concerned itself with the question of agreeing upon a working basis for the forthcoming deliberations.

At a special election called by the City Trustees of Newport Beach yesterday, a vote of 224 to 36 was returned in favor of sel-Downtown parades will soon be a memory in Los Angeles as the result of the adoption by the city Council yesterday of an ordinance prohibiting parades in the district bounded by Temple, San Podro, Pico and Figueroa streets. The fire department has long contended that with the growth in population of Los Angeles, downtown parades caused a tremendous danger in case a fire should occur while the streets and sidewalks were filled with people, such as gathered during the Elks' parades one year ago. President Criswell and Councilman Wheeler voted against the ordinance.

Commissioners Rule By a "Times" Staff Corresponde Against Poolroom VENICE, Oct. 31.—At a meeting last night in the City Hall here of Against Poolroom

As a result of protests of nearby residents, the Board of Police Commissioners yesterday denied the application of Walter A. Howard for a permit to conduct a poolroom at 4416 South Park avenue. This location is near a public school.

The board has also refused a permit to allow dancing in a cafe owned by Gus Ecome at 210 West Sixth street. Los Angeles Harbor district, as the result of protests by near-by property owners. The charges of improper conduct of business against an inn conducted by Grandy. Arens and Fry at 16801 Ventura Boulevard, and for which the owners hold a permit allowing dancing there, were centinued for two weeks.

Buron R. Fitts Brought Here on Stretcher

After lying at the St. Francis Hespital in Santa Barbara since last Thursday night when he was injured in an airplane crash. Buron R. Fitts, past State commander of the American Legion, was brought to Los Angeles yesterday on a stretcher, and taken to the California Hospital. Fitts has improved from the shock, which followed his spectacular fall on the beach at Carpinteria, and surgeons said yesterday he was out of danger. His high leg, however, is again in a critical condition, as the knee which was shot away by ahrapnel in the battle of the Argonne, was wrenched badly, and an operation may be necessary, it was said.

Fitts announced that he will continue to direct the campaign for veterans legislation that will appear on the November ballot.

HERBS USED IN MEDICINES

A Manchester, England, paper urges the renewed cultivation of old-fashioned medicinal herbs in English gardens. In the United States they have also gone out of fashion as a feature of the small garden, although they are imported in large quantities from Turkey, India and China, where they are grown purely for comment. they are grown purely for commer-cial purposes, as their medicinal value is recognized by many leading physicians. Tons of Medicinal herbs are used annually in the preparation of Lydis E. Pinkham's Vesetable Compound, a most suc-cessful medicine for women's ills. It contains no narcottes or harmful

Africa rules the world. They are saying in Durupe that Siki is the champion of all the universe save that particular spot upon which Dempsey chances to be standing at the time and that if he happened to get a peep at Jack he would push him off. Dempsey doesn't want to fight for less than \$1,000,000, but Siki takes the idea in head he might run Dempsey up an alley and soak him without money and without price. They say that it is impossible to dent Siki's head with an ax. The only way to knock him out would be to size a sponsible for this truly Christian anniversaria. dent Siki's head with an ax. The only way to knock him out would be to use a sponsible for this truly Christian anniversalt is too had that Siki has been suffered to run at large. He ought to be surrounded by a regiment and taken back to the jungle. The world doesn't like about champion supecially when they have a strain of the blue-nessed mandril in their vains.

would be, heigh-ho? to enjoy \$10,000 a year mainten and be at the head of a \$500,000,000 corporation in which you have not a dollar invested—where you would stand to map a generous profit with the element of personal loss eliminated?

From the point of view of those who would have the money to spend, this is fine business. But how about those who must pay up the \$500,000,000 and have nothing to de with the personal management of the commission? Under the present system of mivate initiative more has been More than \$1,000,000,000 of private capital has already been invested in light and pow-er development, and the public-service cor-

Why should we set up a new commission with a \$500,000,000 capital to attempt to do what is already being so well done? Why take the risk of the January snows of act of the United States Congress. Coarad, the inventor, who made famous, has just passed away at a old age of \$1. Had all brewers been as conscientions as Conrad do as pure a product the days of the might have been postponed a larger.

Moreover, who are these superior persons who are going to handle the water and power business so much more efficiently than the experts who have spent their lives at fit? We had some experience along that line only a few years ago when the

has not been a raid on the taxpayers attempted in the last twenty years that did not have the Hearst newspapers plugging for it.

How the citizens who challenged the right of these little politicians to make a present of \$2,000,000 to a private banking syndicate were denounced by these sams men! When an appeal was taken to the courts they spent several thousand dollars of the people's money to make the deal stick. And, when the courts ordered the cancellation of the sale and the bonds were resold at a profit these same men said, in substance, "Oh, it was a mere bagatelle. What is \$2,000,000?"

Such is always the attitude of those who are speculating on other people's money. A SKING DIAGNOSTS

A SKING DIAGNOSTS

The Germans are saking the financial experts of other countries to come and look them ever and give advice as to what may be done to improve the exhausted finances of the nation. They realize that some heroic measures will be necessary to stabilitie the mark. They should understand by this time that the first step is to stabilitie the mark. There might have been method in their madness so long as other peoples could be induced to accept them—even at a great discount. But that day has passed. Now the printed marks are not even entisfactory as wall paper. If the financial experts and reparations commission happen to meet on German soil it will be a cross between a coroner's inquest and a bankruytor quis. No doctor of finance can off-hand write a prescription that will start the blood into circulation in its cid-time form.

THE DARK MEAT

Now if Dempsey doesn't behave they threaten to turn Butting Sfid loose against him. Siki is the Senegal gorilla who hit Carpentier so hars that the Parisian die not wake up for three days. Siki trains on absinthe and can fight sitting down as well as standing up. If the rules of the properties to turn the titule the courts believe as to water and good are the men who have providing safeguards against reckless are travagance, without imposing some checks on those who would handle the money.

California has existed and prospered tor a good many years without the luxury of such a commission. Compared with the rest of the country, we are now exceptionally prosperous. Never have we registered such growths here in the southern part of the State, alike in population and industry. Why interfere while things are commission that the first step is to the Legislature, he may be a commission. Compared to the country was now exceptions.

Carpentier so hard that the Parisian die not wake up for three days. Siki trains on absinthe and can fight sitting down as well as standing up. If the rules of the ring were waived he might be quite capable of driving Dempsey so deep in the ground that it would be necessary to hire a steam shovel to dig him out. Just now West africa rules the world. They are saying the necessary to hire a steam in the sole custodian of hundreds of millions? It might be well to refresh our memory by reading the Parable of the Talents. First thing we know they will be out-itting beauty shops for men. As it stands today the average barber must be some-thing of a cosmetician. My lot is cast where millionaires are bears, they sit beside the sea; and every moment some one swears—their lies concerning days long sped. These rich men never learned to play or loaf the long hours through; when in their prime each busy day showed some one they could do; some other rich men they might flay were serging with dile jays of cabbages and kings, of finding out, in fifty ways, the joy that loading brings. They never learned to play vain tricks that do not bring in kale, to make toy houses out of bricks or read an Old Sleuth tale; and so they file their weary kicks and say that life is stale. Oh, parents, teach your sons to play and have a builty time, and do not let them break away that they may nail a dime, or haply, when they're old and gray, thoy'll say that lite's a crime. Barbasol fills the empty spaces and holds the softened hair up like this—

Diagram of a Borbasel there-

The trouble with lather is that it is light and porous. It lets the weight of the rance turn the hairs down against the face. The blade cust through the length of the hair, causing the "pull" so many men suffer from in shaving. To get a close shave, with lather, therefore, is difficult. You must go over the face several times, which increases the irritation.

Shave With Barbasol No Soap! No Brush! No Rub-In!

The put Burbasol on your face with the tips of your fingers gently coading a soothing, cooling film of Barbasol over the beard stubbles. Hen shave. Barbasol requires no rubbing-in.

Her shaving, do not use any soap to wash off the Barbasol. Just wipe use face with a damp towel, then with a dry towel. For Barbasol itself the most scothing of face emollients. Barbasol and your razor are all a shaving kit you'll need.

't wait mother day for your first Barbasol shave. Shave the Barbasol sanight or tomorrow morning. It will be the best shave you've ever a cool, clean, comforting shave without razor "pull" and smarting. At most druggists, 35c and 65c. If yours cannot supply you, send a cain or stamps for one week's trial tube.

to win all their games to date, City League prep grid squads will go down the final stretch of the schedule this coming Friday and Saturday afternoons. Two games more will come off Saturday.

Perhaps the most important tilt to come off on this coming fish day is the scrap between the Polytonic and Jefferson elevens at Washington Park. Both teams are heavy, have a lot of power and will no doubt, put up a battle de luxa. Coach Costello is basing his the L. A. Scots will tangle with the theid Club soccer eleven at Ashington Baseball Park Sunday crat line.

stadium, starting at 3:30 o'eleck. The Seasiders are doped by some as an easy winner. Coach Risabolis has an aggregation that has proved too powerful for all comers to date, and will probably crush the Roman under a large score. Still Coach White's men are a bunch of fighters and they may put up a surprisingly good fight against the heavy beach eleven. The Seasiders will have a weight advantage over the Pioneers of about twenty-five pounds to the man. Drury and Don Hill, Seasider stars, are in poor condition, but will start faturday.

Franklin is expected to take an easy win over Hollywood in its game which will probably take place at Patterson Field. The Kiteffyers have a good punter in Bob Lee, and a classy pair of ends in Godett and Teachout, which is about half the battle in most grid struggles. Hollywood has improved much, of late, so the Franklin eleven may find the going pretty tough before the full sixty minutes are played.

CALIFORNIA MANAGER SPIKES FALSE RUMOR THAT BEARS WILL REFUSE NEW YEAR DATE

SAN FRANCISCO, Oct. 31 .- Lute Nichols, graduate manager of athletics at the University of California, when asked about the report printed in Los Angeles to the effect that the California football team will refuse to play Penn State at Pasadena on New Year's Day, said:

"The University of California has nothing to say about the matter. The team to epresent the West will be picked by the Pacific Coast conference the Saturday after Thanksgiving Day. It may be California and it may not. We at California have no means of knowing at this time. It sounds a bit ridiculous to have California declining something that has not been offered. So far as I know, California has engaged in no negotiations of any kind about the New Year's game."

The Long and the Short of the Washington Eleven right up close, folks, and have a look at the two extremists of the Washington football team. The tall young warrior is Bill Grimm, who holds down a tackle berth on the Purple and Gold squad, while the little fellow, and he's really not so tiny as he seems, inasmuch as he tips the beams at 145, is Walter Dailey, the quarterback of the team.

Southern California football fracas set for November 11 at Palo Alto. If Stanford wins over Nevada next Saturday, and this the Cardinals are determined to do, indications, are that the entire Stanford stadium will be filled for the Trojan tilt, which will then support the largest crowd ever assembled in the North for any but a California-Stanford game.

The Cards are out not only to win, but to run up a score against the Sagebrushers, and this despite the Reno men were able to hold the U.S.C. tribe to six points. Kerr expects in this encounter to get his offense to working consistently, which is something it has not dense to data, and if this is really accomplished, the Stanfordites will look a considerable team.

De Luxe Ducking

Duck Hunting by Plane is Latest

Max Snyder and Ernest Leidholt have introduced the newest thing in duck hunting. It's easy enough. All you require are a couple of trustworthy guns, an accommodating friend who can chauffeur an airplane, plenty of nerve and there you are! Mr. Snyder is in charge of the Cocoanut Grove and the Palm Room at the Hotel Ambassador and Mr. Leidholt is the genius who presides over the cuisine. Technically he is the chef. In reality he is the newest-fangled sort of a foe to the duck colony of Southern California. Yesterday Mr. Snyder and friend Leidholt thought it would be exciting to go duck hunting a la airplane. They were accompanied by Max Snyder's brother Eddie, from Chicago, who, with the assistance of a pair of fine dogs, retrieved the ducks his brother and Chef Leidholt slaughtered.

The tall, sorrel mentor has achieved so marvelously that the Biue and Cold followers will find it hard to satisfy themselves with less illustrous attainments.

But football fortunes fluctuate. Seldom are such elevens evolved as the wonder team of 1920 and which furnished the groundwork for the two succeeding unusual elevens. Then, as the game develops more highly in the West, California will experience more relentless competition with each succeeding season, particularly at Stanford and at U.S.C. Eventually the "big three" of the West will be very evenly matched with a shifting supremacy.

LONDON, Oct. 31.—The United States again carried off a majority of the honors in the ranking of the first ten in tennis by Wallis Meyers, British expert, whose unofficial selections carry tremendent weight in this country. Tilden and Johnston are placed one and two, Vincent Richards four and R. Norris Williams eight. Three places are given to Australia, two to France and only one to England.

The complete list is: Tilden, Johnston, Patterson, Richards, Anderson, Cochet, O'Hara Wood, Williams, Kingscote and Gobert.

"There will be no dispute about the first two," says Meyers, explaining his selection. "Neither has lost a Davis cup singles match since the trophy was regained by America. Both proved their superiority over all comers in their own country by reaching the final in the American championship. In that round Tilden beat Johnston and since Johnston defeated both Patterson and Anderson a week earlier in the Davis cup challenge, round without the loss of a set his claim to primacy can scarcely be questioned. I have always considered Tilden the intellectual superior of Johnston on a lawn tennis court. His strokes may have less automatic accuracy may have less automatic accuracy

What This Service Means to You in Dollars

Here are facts which you usually take for granted. Figure up their value to you in your business.

First, you can take Southern Pacific trains with the knowledge that in a remarkably high percentage of cases they will take you to your destination on time. Thousands of men make appointments in advance for this reason.

Second, you know that you can go where you want to go when you want to go, on Southern Pacific trains. They reach most points on the lines several times

Third, there is never a question about getting there even though rain, fog, sleet or other unfavorable

Dependability—that's the keynote. No other form of transportation compares in this factor.

Courteous Service

In addition to its dependability, Southern Pad service means comfortable travel. Club, observati and dining cars are available on many trains. Southern Pacific men are proud of Southern Pacific service. Their first thought is courtesy and efficiency. It is Your service, made to meet your requirements.

Use the Southern Pacific. Enjoy the thoughtful provisions made for your comfort. Profit by the added dollars which this service enables you to earn.

From the Automobile Crue of Southern California and the Los Angeles Traffic Commission, protesting against the taking out of the circle, yesterday were ordered filed by the City Council.

These organizations declared that the circle had been a success in eliminating traffic accidents at, this busy intersection.

The lamp post and red light in the center of the circle remain in position, and the Automobile Clubhas requested that this light be retained and that a smaller fence than the original magic circle bebuilt around the post.

This may be done, as the objections to the circle were largely caused by the fact that it was too larke, and when traffic moved in greater volume than 12,600 vehicles an hour, a blockade resulted. A modified or smaller circle may be established so that traffic accidents can still be eliminated at the intersection, and at the mane time no blockade of vehicles will be caused.

With Fur or Without-Women's and Misses' Fine Coats, 45.00, 55.00, 65.00

Concentrating on value, Hamburger's coat week surpasses any past selling of fine coats, in style-individuality, variety and dollar-saving economy. A new coat one must have—coats of past season are so entirely passe—the only question is where can one purchase the greatest value at the least price. This coat week is the answer—see these!

For surely, fabrics were never more luxurious, softer, lighter in weight, yet withal warmer, than those fashioned in coats at these three prices. There are Arabella, Ormandale, surperba, Normandy, poincianna, velour and velour laine—many with large collars and cuffs of

-black and platinum wolf, beaver, nutria squirrel, Australian oppossum, caracul

And the sleeves—they are sure to be quite distinctive and different, as demanded by the vogue—while tassels, es broidery, and belts add a new touch of smartness. Madame or mademoiselle are sure to be most charming, con fortable and well dressed in one of these value-priced coats.
